

Scholarships offered by The Pakistan Institute of Engineering and Applied Sciences (PIEAS)

The Pakistan Institute of Engineering and Applied Sciences (PIEAS) has offered 10 scholarships at post-graduate level for candidates from the OIC Member States.

The PIEAS Scholarship Programme is to assist OIC countries in the development of their human resources, especially, in the nuclear science and technology. It will provide full support to pursue two years studies in the following areas:

Sr.No	Subject of Master Degree	Required BS degree for eligibility
1	Nuclear Engineering	Electrical/Mechanical/Chemical/Nuclear Engineering
2	Medical Physics	Physics
3	Radiation Physics	Physics
4	Nuclear Medicine	Bachelor's degree in medicine plus one year house job
5	Radiation & Medical Oncology	

The above programs are very special in the sense that, they are available at PIEAS only in Pakistan. The programs are highly valuable for benefiting from peaceful applications of nuclear technology. PIEAS ranks among top 400 universities of the world competing for the first time in the Quacquarelli Symonds (QS) World University ranking 2018 and maintained its No.1 ranking in all subsequent university rankings by HEC and Asian University Ranking (QS position No. 1 in Pakistan and at 106th position in the entire Asia.

The scholarship covers tuition fee, free single room accommodation in PIEAS hostel, monthly stipend of (Rs 25,000) for two years. However, continuation of scholarship will depend on good behavior and academic performance in each semester. Other details are as follow:-

Criteria:

The medium of instruction at PIEAS is English. Therefore, proficiency in English is a must for successful studies. The candidate must have excellent academic record in High School and Bachelor degree.

Admission Schedule

Admission process for MS programs starts around May every year and classes start from 1st Monday of November. Information about application procedure and required document is available at PIEAS website:

www.pieas.edu.pk/admissions/

Focal Person for International Students

Dr. Masroor Ikram, Director (Academics), PIEAS is the focal person for all international students interested to pursue a degree program. All enquires about admission and scholarships may be sent directly to him at the e-mail, masroor@pieas.edu.pk

**MS Scholarships for Applicants
from OIC Member Countries**

**PAKISTAN INSTITUTE OF
ENGINEERING AND APPLIED SCIENCES**

Introduction

Pakistan Institute of Engineering and Applied Sciences (PIEAS), Islamabad is a highly specialized institution of higher education with its major focus on postgraduate degree programs. PIEAS offers PhD, MS and BS degree programs in diverse areas of engineering, physical and life sciences. The institution also offers degree programs in nuclear science and technology. These programs are very special in the sense that, in Pakistan, they are available at PIEAS only. The programs are highly valuable for benefiting from peaceful applications of nuclear science and technology.

PIEAS is a, relatively, new university. However, its performance has been outstanding. In the first ever ranking of universities in Pakistan, carried out by the Higher Education Commission (HEC) in year 2006, PIEAS was ranked as the No. 1 Engineering University of the country. Ever since, PIEAS has maintained its No. 1 position in all of the subsequent university rankings by HEC. In May 2014, Quacquarelli Symonds (QS) Asian University Rankings placed PIEAS at No.1 position in Pakistan and at 106th position in the entire Asia.

Brief Description of the Scholarship

Pakistan Institute of Engineering and Applied Sciences (PIEAS) plans to offer 10 MS Scholarships for the candidates from the member countries of the Organization of Islamic Cooperation (OIC). The Scholarship Program has been launched with the objective to assist OIC member countries in the development of their

human resource, especially, in nuclear science and technology. It will provide full support to outstanding young students from OIC countries to pursue two-year MS studies in an area of nuclear science and technology.

Availability of Scholarships for MS Studies

Sr. No.	Subject of Master's Degree	Bachelor's Degree Required for Eligibility
1	Nuclear Engineering	BS in electrical, mechanical, chemical or nuclear engineering
2	Medical Physics	BS in physics
3	Radiation Physics	BS in physics
4	Nuclear Medicine	Bachelor's degree in medicine
5	Radiation & Medical Oncology	Bachelor's degree in medicine

Other Pre-Requisites

The medium of instruction at PIEAS is English language. Therefore, proficiency in English language is a must for successful studies at PIEAS. The candidates must have excellent academic record in secondary school certificate / O-level, higher secondary school certificate / A-level and bachelor's degree.

Benefits under the Scholarship Program

The Scholarship Scheme will provide a monthly stipend of Rs. 25000/- for two-year MS studies at PIEAS. No tuition fee will be charged and a free single room accommodation in PIEAS Hostel will also be provided. However, continuation of scholarship and MS studies will be dependent on good behavior and good academic performance in each semester.

Admission Schedule

Admission process for MS programs at PIEAS starts around May every year. MS classes at PIEAS start from the first Monday of November.

Application Procedure
